No other investment in your property will pay bigger dividends than custom fencing, suited to your needs and your landscape. Town and Country Fence has materials and designs to create privacy and security fencing or to enhance your landscape with a dramatic wood or ornamental treatment. Town and Country Fence can help you realize your dream.

Increase Your Property's Value and Appearance

Custom Wood Fencing

Choose from various combinations of board and top styles. Town and Country Fence has one of the nation's largest selections of styles and materials to create a custom look that suits your property and your purpose. No other fence material is as versatile or as pleasing to the eye. Custom wood fencing enhances the look of any property yet provides a high level of privacy. Let our expert staff show you the alternatives that will meet your needs.

Natural woods and man made materials provide long-lasting durability and beauty. Many woods become more attractive as they weather; others glow with beauty after protective stains are applied. All Town and Country wood fencing is uniformly sawn and of superior quality. When combined with unique designs and post treatments these fences make individual statements about your property. Town and Country Fence has the experience and dedication to design and construct a fence that will be the perfect compliment to your property and your lifestyle.

Modern times require modern solutions to the problems of safety and security. Each individual's needs differ, depending upon property size, location and type. Town and Country Fence specialists can develop a system that will provide precisely the level of protection you need. Fencing systems can be equipped with automatic gate closers and other amenities to make them more secure and yet convenient.
